

iServe, used in conjunction with iPOS and iManager products, provides data aggregation and validation at a level you've only dreamed of.

- report shows how much product is sold with profit/loss
- report shows how much product is sold to individuals
- report shows sales of product by individual transaction
- automatic, real-time identity validation, demographic prompts available
- backup receipts time and date stamped for audit purposes
- report shows sales by clerk, shift, store, and collectively across entire chain by day, week, or year
- EMV pathway assured for migration to chip and pin
- complete ordering and receiving aggregation and reconciliation with store level or head office control
- specific security levels for staff access
- charge account/fleet/giftcard/loyalty program ready with invoice and points statement generation
- customization of reporting
- file export in any format

- communications to and from iPOS and iManager are in real time or batch-based
- iPOS utilizing iFuel and iPay@Pump
- Gas Bar with EMV component Pay@Pump
- iPOS pinpad device with keyboard/mouse (1d/2d barcode scanner, terminal receipt printer, wireless debit/credit)
- iServer allows for a push and a pull to and from your sites

Wiz-Tec is one of the fastest-growing software companies in North America. Our primary focus is electronic business solutions, Point-Of-Sale (POS), and integrated systems for small, medium, and enterprise needs. Regardless of the size of your company or your budget, Wiz-Tec is here to assist you.

Manage your Gas/C-Store/Carwash retail business with Wiz-Tec's flagship aggregating iServe system. Control gas pump pricing from your head office, manage pricing for your tunnels and bays, membership control, fleet control and authorization, fuel deliveries, tank readings and all without expensive human error. True automation and control at your finger tips. You can view and analyze sales and profits using our large report library, and manage your store fronts, whether it's ten sites, one hundred sites, or one thousand sites, all from your head office location.

Our customers report almost immediate improvement in their bottom lines within the first 90 days, and many have already saved for the system within the first 6 months.

Don't delay... get your business on track with Wiz-Tec today!
