EMV L1, L2, and PCI PTS 3.X/4.X compliant payment terminals. Take **contactless** debit, credit, and digital wallet payments

Compact design, durable and **weather-resistant** materials

Activation and monitoring from in-store point of sale system (iPOS) through **real-time wash control**

7" touchscreen with customizable wash options and single use **wash code entry**

ONICS Tap connects to equipment through external rotary switch for wash selection.

Auto Compiled Sales Reports Directly in iPOS

The ONICS line automatically compiles data, sales, and receipts into iPOS for easy reporting. Access consolidated reports, easily manage your sales data, and quickly look up transactions from in-bay payments through your in-store point of sale. Make manual reconciliation a thing of the past with ONICS Tap.
