

iPOS

Point of Sale

For First Nation Retailers

The #1 ITE rebate software in Canada

Pump control

Combine your checkout lane and your fuel console into one system to increase throughput and improve reporting. Available for all major North American pumps.

ITE rebates

Canada's #1 system for First Nations tax exemption. Fill tax exemption rebate forms directly from your POS and file electronically in supported provinces.

Disclaimer: *Process depicted is for AB, SK, ON, and QC only. Specific rebate process is province-dependent. Contact us for more details on how our ITE services work in your provincial system.

1 Eligible customer purchases fuel or tobacco

2 Scan status document to validate eligibility

3 Taxes are taken off and transaction information is recorded

4 Tax exemption claim is automatically submitted electronically after the transaction is processed

5 Claims are reviewed by the government and rebates are sent once approved
