REDUCE THE TIME YOU SPEND ON PAPERWORK BY OVER 75%

Canada's #1 system for First Nations tax exemptions. Fill tax exemption rebate forms electronically to make your day-end easier. On average our customers save over 1 hour a day on paperwork alone!

COST EFFECTIVE

MiniPOS ITE is the least expensive way to start recording tax exemptions electronically without changing POS systems. Add MiniPOS ITE to your existing set up easily and inexpensively.

ELECTRONIC EXEMPTION FORMS

Instantly fill rebate form information through MiniPOS ITE. Transaction and customer details will be automatically added to electronic copies of the fuel and tobacco tax exempt sales forms. You'll be able to simply print out the form to mail out every month.

QUICK DATA ENTRY

Improve throughput significantly with our smart database. Customer data will be pre-filled on their next transaction after you ring them through the first time. No more slowing down your cashiers by writing down Status Card numbers during transactions.
