

iPOS Pay at the Pump Integration

Pay at the pump for fast fuel transactions. Stand out by optimizing and increasing throughput.

iPOS Compatible

Pay at the pump now works with Wiz-tec's iPOS software, making it the most comprehensive gas station point of sale system in the market.

A full solution point of sale and Back Office system that provides pay at the pump control and data report management in addition to maximizing throughput with a user friendly interface.

Pay at the Pump is designed for the newest dispensers including Dover's Ovation and Anthem dispensers

Designed for high-volume gas retailers:

Perform during peaks by scaling up your checkout lanes at any time

EMV Certified

Easy to use interface

Supports up to 16 double sided dispensers and 9 POS lanes

24/7 support available in English and French

Payment processing powered by
